Create a nice mood

The warm and fashionable interior layout, rich and advanced technological equipment, convenient and concise operational design, and fully intelligent humanized considerations enable you to create your own charming space anytime and anywhere.

**For illustration purposes only

① The 3D fashionable multi-functional dashboard embodies a charming sense of technology and clearly shows the common driving information, including instantaneous fuel consumption and remaining driving mileage.

① Steering Wheel Control Buttons

The steering wheel integrates the functional buttons, including audio control, bluetooth control, and cruise control, to achieve easier driving experiences.

② Push-to-Start System

Your passionate journey only requires one push of a button to start, omitting the fussy traditional start system.

③ Keyless Entry

With the adoption of advanced wireless radio frequency identification technology, the chipset within the intelligent key carried by the owner can sense and automatically unlock and lock the doors, featuring high safety and intelligence.

- ① Automatic Two-Zone Air Conditioning System
The real-time automatic constant temperature control realizes the zone temperature regulation for the driver seat and front passenger seat to build a constant and fresh interior environment.
- ② Audio/Video Entertainment System
The rich and practical audio/ video entertainment system fully embraces your journey with pleasure.
- ③ Courtesy Lamp
- ④ 6-Direction Electric Adjustable Driver Seat
- ⑤ Electric Adjustable Sunroof
The automatic one-touch opening enables you to easily enjoy the nature. **Premium Only

Enjoy a nice mood

At Haval, we understand life can sometimes be stressful. The Haval H2 incorporates advanced technology and equipment to make life simple.

All-Round Airbags (Front Dual Airbag + Front Dual Side Airbag + Integrated Side Curtain Airbag)

Haval H2 provides you with a top-level, all-round safety guarantee. In the event of accidents, the airbags deploy promptly to immediately relieve the impact forces applied on the front and side of the driver / front passenger, and thus minimize the harm to the driver / front passenger.

① Front-row Active Headrest

Front-row headrest can trigger neck protection system in case of vehicle collision to provide efficient support to the head and reduce cervical spinal injury.

② Reversing Sensor + Reversing Camera + Visual Display on Dead Zone of Left Front Wheel

The perfect combination of reversing sensor and reversing camera provides you with accurate reversing information.

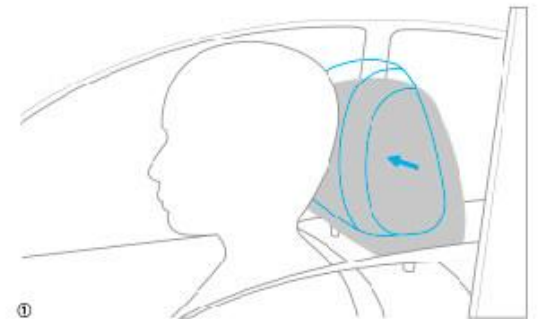

The scene of the left front wheel zone, filmed by the lower camera of the left rearview mirror, enables the driver to clearly understand the information of the driving dead zone, which greatly enhances safety.

③ TPMS (Tyre Pressure Monitoring System)

It pre-warns in case of hazard of the tyre by real-time monitoring so as to substantially increase the safety factor.

④ ESP (Electronic Stability Program)

Make sure vehicle is safely running on the correct track, prevent vehicle skid and improve running stability and safety.

① GW4G15B Engine

The technologically-leading GW4G15B high efficiency and energy-saving engine boasts outstanding sporting performance and prominent fuel economy. The 110kW top power output and 210N.m peak torque output can explode with amazing performance instantaneously.

② Front McPherson Independent Suspension - Rear Multi-Link Independent Suspension

Haval H2 adopts a professional and superior SUV suspension system to handle all kinds of rough, off-road conditions. While guaranteeing the maneuvering stability of the vehicle, it provides the driver/passengers with better comfort even during journeys with unpleasant road conditions.

TOD Intelligent Electric 4WD

ECU of transfer gear automatically collects real-time data of the running vehicle (including vehicle speed, wheel speed, throttle opening, etc.) to achieve reasonable switching of two-wheel drive and four-wheel drive by controllable torque transferred by the transfer gear according to actual running conditions.

Power	1.5 VVT TURBO CHARGED (CBU)
Engine model	GW4G15B
Fuel type	Petrol
Displacement (L)	1.497
Rated power/engine speed (kW/rpm)	110/147/5600
Maximum torque/engine speed (N·m/rpm)	210/2200-4500
Emission standard	EURO V
